Canon

CREATIVE PARK
PREMIUM

Fun Filter Effect

Create professional looking photo prints, greeting cards, calendars and more

CREATIVE PARK PREMIUM is an online service that lets you download photos & illustrations from internationally recognised photographers and artists.*

Add a little fun to your photos

Apply Fun Filter Effects to your photos with Easy-PhotoPrint EX. Be creative with effects such as blur background, fish eye, miniature, soft focus and toy camera.
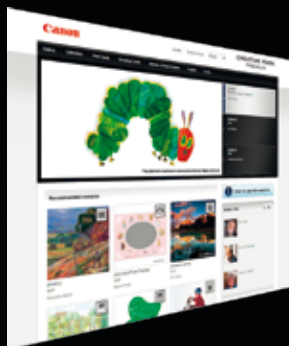

Fish Eye Effect

* Access to CREATIVE PARK PREMIUM is available with PIXMA products when Canon genuine inks are installed and is accessed through Canon Solution Menu EX.

Capture memories from all your movies

PIXMA Cloud Link

Connect wirelessly to mobile devices

Turn your Canon digital camera movie moments into beautiful prints with Canon's Full HD Movie Print. Simply pause to select a frame from your HD movie and print. New features allow you to Merge Frames by combining multiple clips, or spread several clips in Layout Print mode to tell a story.

Browse and print from your favorite photos from your online albums at CANON iMAGE GATEWAY* and Google's Picasa directly from the All-In-One. Print on demand calendars, stationery, customised envelopes and other templates from the Cloud and on the go from anywhere with Google Cloud Print**.

Easily share your printer with Wi-Fi between multiple PCs. Wirelessly print from and scan to mobile devices with Easy-PhotoPrint App anywhere in the home.

*Where available.
**Service available from end of November 2011, or later

Easy

Intelligent Touch System

Quick Operation

FastFront

Whatever you want to do, PIXMA makes it simple

Canon's Intelligent Touch System provides intuitive and easy to follow light guided touch panel operation, with a large TFT display integrated into the stylish PIXMA body surface.

Access advanced features intuitively with Quick Operation

With Quick Operation it's easy to access frequently used modes and features. For example, it now takes just two simple steps to print photos from a memory card.

Innovative design saves space in your home

Canon's new FastFront design means ink and paper are easily accessed from the front of your All-In-One, providing a more compact and smaller footprint. So it can be put closer to a wall, or even placed on a shelf. Available on the MG2150 and MG3150 only.

Insert Memory Card

ChromaLife 100+

FINE
Full-photolithography Inkjet Nozzle Engineering

Create the most beautiful photos

Experience superb photolab-quality

A combination of genuine dye-based ink and genuine photo paper provides more vibrant and beautiful photos with an album life of up to over 300 years.

FINE is Canon's unique printing technology at the heart of every PIXMA printer. It enables fast photo printing and superb photolab-quality thanks to microscopic ink droplets and precise ink placement.

Work

Take control of web printing with Easy-WebPrint EX

Tired of the way websites never seem to print out the way you want them to? Easy-WebPrint EX is a plug-in for Microsoft Internet Explorer and Safari that makes it simple to select key sections of a web page before 'clipping' them to a single document for printing.

Improve the clarity of scanned documents with Auto Document Fix

Scans of documents often don't appear as crisp and vivid or as easy to read as the original. Auto Document Fix resolves this by delivering beautiful and easy-to-view scan results.

Know and compare the real print & copy speeds of your inkjet printing devices

Canon uses the latest agreed International Standards (ISO) to measure the print and copy speeds. This way, you can be absolutely confident of the performance when using any of our printers or All-In-Ones.
